

Planning, UK

Highlights of our experience:

North York Moors National Park Authority

- Drafting 3 s.106 agreements and advising on general planning risk in relation to the York Potash polyhalite mine and mineral transport system.

Transport Scotland

- On various road projects, including the A90 Balmedie to Tippetty dualling and Aberdeen West Peripheral route.

EDF Energy Renewables

- On various onshore wind projects, including representation at public inquiries.

Whitemoss Landfill

- On the successful Development Consent and environmental permit application for the Whitemoss Landfill Western Extension, a locally contentious hazardous waste facility.

National Grid

- On securing consents for its 1GW England to France IFA2 interconnector project, the first TEN-E Regulation interconnector.

Red Rock Power (prior to that Repsol)

- On the consenting of the Inch Cape offshore wind farm, including defending a judicial review by the RSPB to the Supreme Court.

Gas-fired 'Peaking' Plants DCOs

- On consenting various gas-fired peaking plants (including DCOs), in relation to bids into the capacity market auction.

Statkraft

- On all consenting matters in relation to the grant of consent for two DCOs for its 900MW Triton Knoll project including advising on its acquisition of a 50% stake in the projects.

Southern Gas Networks plc

- On the protection of gas infrastructure affected by TfL's Silvertown Tunnel project, on objections to TfL's application for a DCO and advising SGN on its hazardous substances consent and redevelopment strategy.

BAA

- On the promotion of projects including Heathrow T5, Stansted G1 and G2 and scoping and strategy for Heathrow's third runway.
