

CMS equip: helping start-ups scale in Latin America

Helping you grow in Latin America

Starting, and building, a successful business takes a good idea, energy and determination plus the right opportunities and the right people.

Working with, and investing in, start-ups excites us here at CMS, particularly in Latin America. Working with entrepreneurs on bright ideas, fostering growth and innovation in the technology sector, and helping to support the stars of the future gets us out of bed in the morning.

As an early-stage business, legal advice may be pushed to the bottom of the priority list, not least due to the issue of cost. However, for a business to scale successfully, especially when investors are involved, having the right foundations is imperative.

Who are we?

- Specialists in advising start-ups and companies operating in the technology sector in each of our Latin American offices, with experience helping businesses grow and globalise.
- A full-service law firm with a strong sector focus in technology, media and telecommunications.
- 5 offices and more than 200 lawyers in Latin America.
- We work with some of the most important players in technology, as well as new and emerging digital disruptors.
