How can we help you?

With around thirty banks and some fifty management companies concentrated within a little over two square kilometres, the Monegasque banking and financial centre enjoys an excellent global reputation. The specific regulatory environment makes it a unique place for all market participants.

Monaco's banking and financial law is a composite body of regulations, a blend of domestic legislation passed by Monegasque lawmakers, and that of their French and European counterparts. Under the numerous treaties between Monaco and France and the EU, a constantly growing and increasingly complex corpus of laws applies in the Principality.

With over fifteen years' experience in the field, we are able to provide support and assistance to market participants operating in a climate of rising legislative inflation and increasing legal complexity, with significant pressure from regulators and courts.

Our Banking & Finance Team offers both expert advice and litigation services, covering all the needs of our clients in this specialised sector, such as:

Our recent experience

Below we present some highlights of our recent experience

Compliance

- We represented two lending institutions before the Audit Report Review Commission (CERC) following receipt of a notice of grievances.
- We assisted a bank with a project to outsource the group's formalities with respect to the Data Protection Authority of Monaco (CCIN) and its obligations to clients on protecting personal data.
- We were asked to issue legal opinions on the application of anti-money laundering legislation, covering a range of topics including the concept of politically exposed persons, atypical transactions, tax compliance and intra-group data sharing.

Regulatory

- We advised a banking institution on its regulatory obligations in respect of the payment of variable remuneration, particularly in light of EU Directive no. 2019/878 of 20 May 2019 ("CRD V").
- We helped two banks to outsource some of their activities, including their obligations as critical infrastructure operators to uphold banking secrecy and protect personal data.
- We advised a French lending credit institution seeking to expand its operations to Monaco on the regulatory framework applicable to its establishment, including with respect to registration requirements, Monegasque banking monopoly rules and the various cross-border issues.

Banking and financial litigation

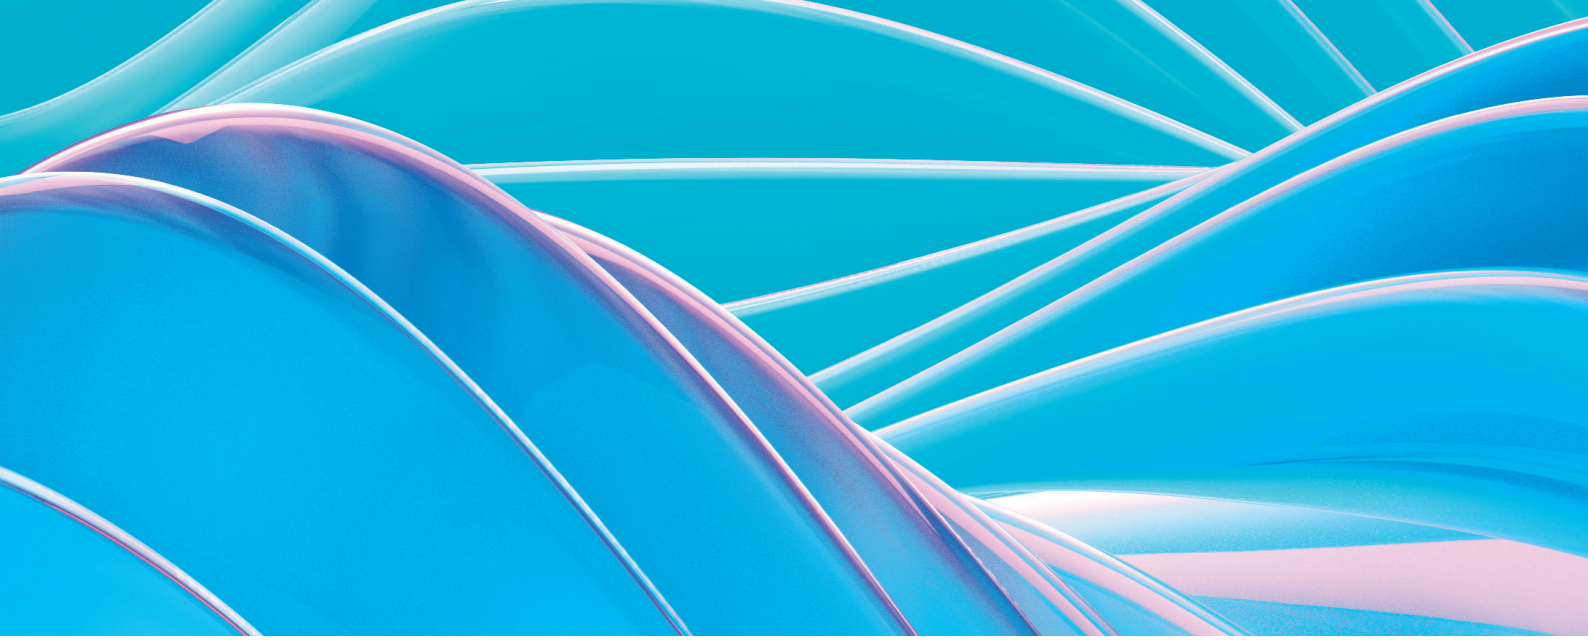

- We are representing a bank in a civil case brought against it by one of its clients seeking an order directing the bank to conduct a transaction for an amount close to USD 275m, despite sanctions imposed by the US Office of Foreign Assets Control.
- We obtained a judgment by the Monaco Court of Appeal dismissing a claim for compensation of USD 22m made by a client against their bank, for losses sustained on structured product investments.
- We are helping a bank collect a claim of a principal amount of EUR 25m from debtors based in Monaco, France, and other European Union member states.

Fraud/ international letters rogatory

- We represented the senior management of a lending institution accused of money laundering, and successfully had the charges dismissed.
- We also represent a banking group and its senior management who are subject to national or international letters rogatory, for offences including money laundering.
- We are assisting several institutions with both the criminal and civil aspects (with respect to clients) of cases of international internal and/or external fraud.

Negotiation and financing

- We assisted a Monegasque company with an initial token offering and coin offering in the Principality of Monaco.
- We also advised a Monegasque company on setting up an investment fund in Luxembourg, which aims to invest in projects in Europe.
- We regularly assist banks with bilateral or syndicated loan arrangements (real estate loans/equity investments/group restructuring operations/refinancing).

Our law firm in Monaco

Our firm was founded in Monaco in 2009, by Christine Pasquier Ciulla, Olivier Marquet and Sophie Marquet.

We joined the CMS network in April 2017, before appointing two new partners: Stephan Pastor in 2018, followed by Raphaëlle Svava in 2019.

We provide our clients with multilingual teams, organized into seven expert teams, each specializing in a particular sector or area of law.

Our firm now has over 50 legal professionals, assisting, advising, and representing a wide range of clients including individuals and legal entities based in Monaco and around the world.

Insurance

- We are assisting an insurance company based in Ireland and operating in France on the basis of the freedom to provide services with preparation of a submission to the Business Development Agency seeking approval to provide insurance services in the healthcare sector in Monaco.
- We lobbied the Chambre Monégasque des Assurances (Monegasque Chamber of Insurance) and the Government to obtain clarification regarding how the Insurance Distribution Directive (IDD) applies to foreign insurers operating in Monaco.
- We are assisting various foreign insurance firms to expand their services, particularly life insurance products, on the Monegasque market, and we regularly adapt the documentation for these products to comply with Monegasque law and draft the relevant Monegasque tax information notice.

Documentation

- We regularly review standard forms of contract, warranty and terms and conditions for several banks and financial institutions in Monaco, as well as, more broadly, some or all of their client contracts to ensure compliance with the requirements of Monegasque legislation.

Collateral and derivatives

- We issued a cross-jurisdictional legal opinion on whether legal guarantees from France, Monaco and Luxembourg were eligible for the risk mitigation techniques for calculating the own funds requirements of a bank in Monaco.
