## **CMS Hasche Sigle advises Wellington Partners on venture capital financing of Middle Peak Medical**

Munich – Medical technology firm Middle Peak Medical has raised EUR 7 million in a seed round and Series A financing. The round of financing was led jointly by Life Science Fonds Wellington Partners, Seventure Partners and High-Tech Gründerfonds (HTGF). The proceeds will provide capital for further development of Middle Peak's patented technology for treating mitral valve disease. Mitral insufficiency (MI) is the most common form of heart disease in the US and Europe.

A team led by lead partner and venture capital expert Stefan-Ulrich Müller advised Wellington Partners on all legal aspects of the financing.

Wellington Partners is one of the most successful pan-European venture capital companies. With more than EUR 800 million in capital under management, Wellington Partners invests in young, high-growth companies that have the potential to become global leaders in the areas of digital media, resource efficiency and life sciences. Wellington Partners has invested in more than 100 firms since 1998, including listed companies.
