

Commercial, Brazil

Highlights of our experience:

BG International

- On Brazilian call off agreements under an international framework agreement for application services with Accenture.

OSX

- On a broad range of commercial and contractual matters regarding the construction, chartering and operation of oil and gas platforms offshore Brazil.

A Danish multinational

- On 'EPCI' contracts for a major project in Brazil, including payment models and contractual positions likely to be acceptable to contractors in the global market.

Prosafe

- On various Brazilian operational matters, including in relation to employment, immigration, tax and social security issues.

CTS Eventim

- On all aspects of its entry into the Brazilian market, including on its successful bid to provide ticketing services to the 2016 Olympic & Paralympic Games and in the incorporation of a Brazilian subsidiary, assisting with obtaining of registrations and opening of bank accounts and coordinating advice on taxation, immigration, importation and the leasing of commercial and residential properties.

Balmoral Offshore Engineering

- On various Brazilian commercial matters, including the establishment of a Brazilian subsidiary, and obtaining of various registrations, potential joint venture arrangements, asset disposals, Petrobras contracts and the acquisition of land for a manufacturing facility.
