CMS in Belgium

The client – at the heart of everything we do

CMS offers businesses and public authorities a full range of legal services. Our lawyers are true experts in their fields. They have a thorough understanding of their clients and their clients' concerns and needs. Our clients are at the heart of the services we deliver.

Therefore, every client can count on a dedicated contact partner for all legal questions. The contact partner will designate the lawyers in our firm best suited to resolving the specific issue at hand.

Thanks to this efficient approach, our clients can rely on fast, high-quality service, at competitive rates, adapted to the requirements of each case.

Beyond borders

Present in Brussels, Antwerp and Luxembourg, our firm wants to get as close as possible to its clients. What is more, thanks to the international CMS organization, clients can benefit from a consistent quality of service for their international developments, throughout Europe and beyond.

Our associates, too, benefit from the international orientation of our firm. After all, a significant portion of the cases we handle requires us to look beyond borders. We regularly offer secondments abroad, international training weekends, CMS sports events, and the like.

Evolving in this type of environment is intellectually stimulating. Not to mention mind broadening.

At CMS we pride ourselves on the skills and know-how of our lawyers. Each and every one of us is a specialist in his/her field and, as such, an invaluable part of our firm. We're always on the lookout for skilled individuals who can join us and contribute to the excellent service we deliver to our clients.

But skills and qualifications alone are not enough. The secret behind our success is you, the person behind the lawyer. It is your passion, drive and commitment that keep us moving forward. We want to work with people who share our passion for the client and who want to be part of our success. People who work hard, but who don't forget to have fun while doing so.

Internship, training and guidance

We seek to build strong and lasting relationships with our associates. This is why we spend a lot of time recruiting them. We do not only consider your legal and professional knowledge, we also consider your personality and motivation. If we decide to welcome you to our office, it means we are convinced that it will be the start of a fruitful collaboration.

Training for the legal profession

If you have successfully completed our selection process, you will start with a three-year internship.

In addition to taking part in the one-year mandatory vocational training organized by the Bar Association, you will have the possibility of attending seminars on topics related to your specialization. These seminars, organized by CMS both in Belgium and abroad, will provide you with relevant legal information and allow you to build valuable relationships with your colleagues from the other CMS offices.

Mutual help and support is an integral part of our corporate culture and key to the success of each and every one of us.

CMS offre les avantages d'une grosse structure ayant un ancrage international, tout en favorisant un esprit d'entreprendre propre aux cabinets de plus petite taille. On sent que c'est un cabinet en expansion et qu'on peut, en tant que stagiaires, contribuer pleinement à son développement et sa réputation. CMS nous offre l'opportunité de nous plonger dans des dossiers d'envergure tout en conservant une ambiance décontractée et positive. Une des premières choses que j'ai remarquées quand j'ai commencé à travailler chez CMS, c'est cet éclat de rire venant du bout du couloir. Tu es content de revoir tes collègues le matin. Grâce à l'excellente ambiance qui y règne et les responsabilités que nous confient nos maîtres de stage, travailler intensément devient un plaisir.

Growing towards independence

Under the guidance of a supervisor, we will help you to develop your skills, making sure you learn to work both independently and as part of a team. In addition, you will be coached on a daily basis by all the team members.

Over time, we expect you to take increasing responsibility in the management of case files. We look forward to seeing our clients put their trust in you for who you are, and not just for who we are.

Gradually you will also develop your ability to attract new clients. By doing so, you will build on your independence and your future within CMS.

Specialization within the firm

Based on the area in which you wish to specialize, you will start off in one of our practice groups. We regard specialization as an evolving process. Therefore, we want to make sure that you first acquire the most comprehensive experience possible of all the matters handled within your practice group.

Only at a second stage will you be asked to develop your specialization within the existing teams. Our priority is to give you the necessary time and resources to make an informed choice.

The issues we deal with are complex and often require different sets of expertise. Therefore, we also believe in sharing knowledge and experience between practice groups.

We consider our trainees to be future leaders of the practice groups they work for. As such, you are a fundamental part of the team from day one.

Putting your aspirations into practice

So, what is a typical day in the life of a trainee lawyer? To be honest, you never really know in advance. Every day is different. Your schedule may suddenly be turned upside down by an unexpected question from a client. Ever so urgent, of course! Finding the right answer leaves no room for taking things lightly. To meet these daily challenges, self-discipline, autonomy and team spirit will be your strongest assets.

Learning the ropes

Be it in the advice you give to clients, in negotiations with counterparties or in the relations with your colleagues, you will soon notice that practical talent and expertise in the field are just as important as your academic knowledge.

This is why you will be closely involved in handling cases from day one. At first, your tasks will be preparatory: research, drafting opinions, etc. But soon we will ask you to be in direct contact with clients. Depending on your skills, of course. We will never put you “in the line of fire” unprepared. You will be working for the various partners in your practice group and follow the cases from start to finish. We value associates who are “on the lookout” for the latest developments in case law, new regulations, etc.

Een van de voordelen van CMS is dat je vanaf het begin direct met de vennoten mag samenwerken. Je wordt dan ook meteen betrokken bij grote en vaak bekende dossiers, waaruit je rechtstreeks veel kunt leren. Wat me bij CMS zeer snel is opgevallen is dat de mensen zich niet te serieus nemen. De sfeer is collegiaal en oprecht en dat vind ik super aangenaam. Bovendien is er bij CMS een zeer gezond evenwicht tussen werk en privéleven.

And after your traineeship?

We build long-term relationships with our associates. Therefore, it goes without saying that you can count on a place within our firm after your traineeship.

Regular assessments of your professional development will give you a clear idea of what we expect from you and of your prospects within CMS.

We favour expansion of our firm through internal growth. Therefore, our associates know that their future depends in part on themselves, the quality of their work and how dynamic they are.

The future of CMS is our shared responsibility!

Want to discover all the possibilities out there? Why not spend part of your internship with one of our CMS offices abroad?

Quelque chose de vraiment appréciable chez CMS est l'autonomie dont tu disposes déjà en tant que jeune diplômé. Quand tu es impliqué dans un dossier, on t'en confie généralement la responsabilité et tu suis le dossier jusqu'à son terme, avec bien entendu le soutien d'une équipe disponible et expérimentée à tes côtés, ce qui facilite ton apprentissage. De plus, le programme « CMS Academy », organisé pour tous les avocats, te permet de développer certaines compétences moins juridiques (« soft skills ») liées à la profession d'avocat. Chez CMS, on vise à te fournir tous les outils pour mener à bien ta carrière d'avocat.

Are we made for each other?

A company culture is a reflection of its employees. At CMS, it can be summed up in one word: "quality". Quality of our work, of course, but quality of life beyond the workplace as well. We expect the same mindset of our associates. You are flexible, independent and a real "go-getter". Moreover, you are ready to invest yourself professionally and you have a keen interest in the business world. CMS offers all the advantages you would expect of a large international firm, while maintaining an enjoyable atmosphere of a firm with "a human face".
