Legal precision in privacy, data security & data protection

CMS is highly experienced in undertaking data protection and information security projects for large scale multinationals and advising on cross-border data transfers. CMS' extensive geographical scope, coupled with a consistently pragmatic and commercial approach, means that we are uniquely placed to meet your business needs.

Helping you comply with the GDPR, ePrivacy & beyond

Your organization must comply with the new and stringent data privacy rules, set out in the General Data Protection Regulation (GDPR), ePrivacy legislations and other data protection laws. What can you do to prepare?
