# CMS start-ups

Contact Card

June 2017

Budgeting for quality legal advice is often not high on an entrepreneur's list of priorities when starting a business. But **timely** advice from experienced legal professionals can be **crucial** in starting you on the road to success.

CMS understands that many start-ups think they are unable to afford the services of a multinational law firm and often miss out on **access to the resources** and **multilevel expertise** we can offer. That is why we have developed a **programme** to support and help ensure that start-ups launch in the best way suitable to them. You are at the heart of our business, whether you are a large or small organisation.

CMS prides itself in having lawyers with **industry expertise**. Our emphasis is not just on being great technical lawyers, but really understanding your business and its key drivers. To understand your industry and company-specific issues, we organise ourselves in **sector groups**, each led by specialists. Our people have deep inside knowledge of the industries

in which they specialise; they follow relevant trends and are aware of **challenges and potential pitfalls**. They know and could help you meet **C-level executives** in various industries. CMS is the 6th largest law firm in the World, which means we can help you get to **new markets**, meet **new people** and understand **how things work** internationally.

We assist start-ups from beginning to launch and remain by their sides long thereafter. We provide support in areas such as: **corporate law, IP, fundraising and financing, data protection, employment, tax, regulatory advice and commercial contracts**.

We invite you to contact any member of our international start-ups team.
