# 01

Section 01

## Regulatory Readiness

*How prepared is your jurisdiction  
for the integration of AI into the  
construction industry?*

# 02

Section 02

## Liability and Decision-Making

*How will potential liability from AI-assisted design and engineering harms be decided in your jurisdiction? Do you foresee any changes to dispute resolution?*

# 03

## Section 03

# Insurance Policy Response

*How do construction insurance policies need to adapt to address the risks introduced by AI, and are insurers already making changes to policy wordings?*
