15:10 A comparative view on damages
pm - There is a growing debate about damages and fairly large damages are being awarded in Norway.
16:10 Briefly, in case of a material infringement, the bidder who should have been awarded the contract, had it not been for the infringement, is entitled to compensation for loss of contract (loss of profit, or 'positive contract interest') under certain conditions.
CMS lawyers Ronny Rosenvold, Veronika Kovacs, Graeme Young and Marquard Christen, will offer their respective views on the topic for comparison.

16:00 A comparative view on time limits and cut off for various types of claims
pm - We are seeing large differences in companies' willingness to challenge procurement documents across the EU. Some countries are quite lenient or rely on a case law, whereas others apply very strict time limits.
CMS lawyers Alf Amund Gulsvik, Bernt Elsner, George Lubega and Petra Heemskerk, discuss the significance of time limits in their respective jurisdictions.
