

## Dispute Resolution, Czech Republic

Highlights of our experience:

- The Austrian and Slovak subsidiary of Siemens in a EUR 25m dispute over alleged pre-tender contractual liabilities linked to an important bidding process for railway security equipment.
- A global banking corporation on a large investigation of a data theft, potential solicitation of customers and unfair competition practices by some former employees of their Czech entity.
- A global medical devices company on several criminal investigations on alleged bribery, corruption and compliance issues and on several internal investigations regarding compliance issues, relations with certain distributors and hospitals, interviews with employees, including management, screening of certain employees and termination of employment of several managers.
