How can CMS help you?

CMS is a firm with the scale and expertise to tackle cyber breaches from every angle. We can assist you with:

Cyber risk advisory

Providing a comprehensive risk analysis and identifying mitigation action to ensure your business is best prepared for a variety of outcomes before a breach occurs.

Reputation management

Protecting your business against the public relations consequences of a breach.

Civil claims and follow-on damages

Assisting in both bringing and defending any resulting civil claims following a cyber breach.

Incident response

Coordinating your immediate response to a breach, drawing on our network of IT and PR experts as well as advising you on the immediate legal implications of an incident.

Regulatory notifications

Assisting with the prompt submission of notifications to relevant regulators to mitigate against further action.

Regulatory investigations

When further investigation does result, our team maintains excellent relationships with regulators worldwide, helping you to align the regulatory landscape with your business and risk management strategy.
