Your notarial services team

Many legal transactions involving corporate law and real property law require certification by a German notary public. The purpose of notarisation is to ensure that these particularly important transactions are legally compliant.

Our eight notaries public cover all aspects of notarial practice, especially corporate and real estate law, but also inheritance law. On request, they can all certify documents in English, some also in French or Spanish.

The notaries are supported by a team of specialist employees who are familiar with the requirements of notarisation work and the associated processes.
