Cross-border CMS team advises Dover Corporation on acquisition of Swiss Maag Group

Zurich - CMS has successfully advised longstanding client Dover Corporation on its acquisition of the Maag Group ("Maag"). The deal is subject to competition clearance and is expected to complete within 30 days.

Maag, which is headquartered in Zurich, Switzerland, will be part of Downers Grove, Illinois based Pump Solutions Group (PSG®) within the Fluid Solutions platform of Dover's Engineered Systems segment.

Corporate partner Stefan Brunnschweiler led the transaction team with support of an interdisciplinary team of CMS lawyers (listed below) from Switzerland, Germany, Luxembourg, Italy, France, Brazil, China, Russia, Ukraine and Morocco. Further law firms (primarily of the World Law Group) in the US, Singapore, Taiwan, Malaysia, Canada, Indonesia, Oman, Pakistan, Saudi Arabia and South Korea advised Dover Corporation on all aspects of the acquisition of Maag Group.

"The transaction was particularly challenging since more than 20 jurisdictions were involved and had to be coordinated. This transaction is a perfect example on how well the CMS network and the World Law Group work together", said Stefan Brunnschweiler, lead partner at CMS von Erlach Henrici.

About Dover

Dover Corporation is a multi-billion dollar diversified global manufacturer. For over 50 years, Dover has been providing its customers with outstanding products and services that reflect the company's commitment to operational excellence, innovation and market leadership. The company focuses on innovative equipment and components, specialty systems and support services through its four major operating segments: Communication Technologies, Energy, Engineered Systems and Printing & Identification. Dover is headquartered in Downers Grove, Illinois and employs over 33,000 people worldwide. Dover Corporation is traded on the New York Stock Exchange under «DOV». Additional information is available on the company's website at www.dovercorporation.com.

About PSG

Dover's Pump Solutions Group (PSG®), a global leader in positive displacement pump and supporting technologies, delivers value added pumps and systems that serve customers requiring safe and efficient transfer of critical and valuable materials. PSG features world-class facilities in the U.S., France, Germany, India, and China. Additional information is available on the company's website at www.pumpspsg.com.

About Maag

Maag is a global leader in premium external gear pump technology and engineered integrated solutions for the polymer, plastic, chemical and petrochemical industries. Headquartered in Zurich, Switzerland, with offices in Germany, US, France, Italy, Singapore, Malaysia, Taiwan, Brazil and China, Maag operates globally, with operations in Switzerland, Germany, the U.S., Italy, and China, as well as additional sales support offices around the world. Maag posted 2011 revenue of approximately \$170 million. Additional information is available on the company's website at <http://www.maag.com/>.
